SPEAKS UP FOR CANADA

And No Wonder—Renting His Land He Made \$8.50 Per Acre.

So many Americans now have personal knowledge of Canada that false reports concerning this country are being continually corrected by Americans themselves who know the facts, and who are too fair-minded to let a false statement go unchallenged. A case in point arises out of a statement supposed to be made by a resident of Alberta, and published recently in the Spokesman-Review, of Spokane, in which the condition of settlers in this country was painted in a very bad way indeed. The writer of this attack on Canada refused to let his name be known, so it can be taken for what it is worth, but Mr. S. L. Wallace, of N 4723 Crestline, Spokane, who lived for some years in Western Canada, came to the defense of the country in the following letter which was published in the Spokesman-Review of February 11, 1916:—

"To the Editor of the Spokesman-Review:

"In Sunday's Spokesman-Review was a letter from a man in Alberta to the chamber of commerce, asking that something be done to keep Americans from going to Canada, and saying that that government was run by the railroads, banks and manufacturers; that once a man got there he never could get away. Had this man published that letter over his own signature there is no doubt but he could get out of Canada.

No country will do as much to help a man to get on his feet, if he tries to help himself, as Canada. I know of the government helping people to provisions, feed, seed grain and fuel, and charging only cost of delivery to the nearest town and 6 per cent. What more could a man ask?

I lived five years in Southern Saskatchewan and earned a patent to 320 acres of as good land as I ever saw. I have raised over 80 bushels of oats on sod, 40 bushels of wheat, and 20 of flax to the acre. Until I lost my health I never was better satisfied anywhere. I had my land rented this last year for one-third. It brought me almost \$8.50 per acre, or \$1,143.91 for 135 acres.

This man says he loves the land his fathers died for. So do I, and I love the land that gave me my home.

"S. L. WALLACE."

Cutting English Trees.

England has 125,000 acres of crown forests, containing magnificent trees untouched by the woodman's ax. Now they are to go. England needs the lumber and has appealed to Canada to provide a battalion of axmen. Needless to say, Canada has responded gladly. There is now organizing a battalion of 1,500 experienced bushmen, who will wear the khaki, be subject to military direction and wield their axes on the ancestral oaks of the motherland. Soon the music of their blows will be heard ringing through the great New forest of Hampshire and Dean forest, in Gloucestershire. England must have the wood, but it is sad to think of these glorious old trees 'disappearing. Many of the woodsmen will come from Quebec, where experts in the craft abound.

The Last Request.

"Doctor, I have always thought I should like to have a glass butter dish before I died."

MAN BLOWN TO PIECES

DYNAMITE CARRIED IN POCKET EXPLODES.

Rancher at Folsom Fearfully Mangled, Livery Stable Wrecked and Several Horses Killed.

Western Newspaper Union News Service.

Folsom, N. M.—Isom B. Williams, a ranchman living in this vicinity, was literally blown to pieces by dynamite and caps, which exploded in his pockets in a livery barn here. Williams, who owned a large ranch in Long's cañon, about twelve miles from Folsom, came to town, and putting his horse in the livery barn, went out to purchase some dynamite. He returned to the barn to get his horse, carrying the dynamite and caps in his pocket. He entered the office of the barn, which was unoccupied, intending to prepare the dynamite so he could carry it safely. A moment after, the explosion occurred, no one knowing how it happened.

Williams' body was horribly mangled, but he lived more than two hours. Immediate medical attention was given him, but his life could not be saved. The office of the barn was wrecked, and several horses were killed. Window glass in houses near the barn was shattered.

Mr. Williams was 40 years old and one of New Mexico's prominent ranchers. He served as deputy sheriff at Folsom several years ago and earned a record for efficiency. The coroner's jury returned a verdict stating that Williams came to his death by the accidental explosion of dynamite.

Farmington—A cold wave struck this section the latter part of last week, and for two nights the thermometer went down to 26.
